

What's Stopping You From Investing in Upgrading Your Outdated Systems?

| Ask yourself, do you experience: | Yes | No | How Xequals can help you |
|---|-----|----|--|
| Inflexible and outdated UIs? | ✓ | ✗ | Outdated systems often have rigid UIs that frustrate users. Xequals allows creating intuitive, responsive interfaces optimised for any device. |
| Integration challenges? | ✓ | ✗ | Connecting outdated systems to modern tools can be difficult and expensive. Xequals simplifies integration via APIs. |
| Vendor lock-in? | ✓ | ✗ | Proprietary outdated systems lock you into vendor relationships. Xequals leverages open source software with no vendor lock-in. |
| Limited multichannel digital experiences? | ✓ | ✗ | Building mobile apps and connecting to modern systems is hard with outdated systems. Xequals helps you connect you to the digital spaces where your customers are. |
| Poor customer experience (CX)? | ✓ | ✗ | Outdated systems make delivering personalised, optimised CX difficult. Xequals has CX best practice in our DNA. |
| Rising maintenance costs? | ✓ | ✗ | Outdated systems require expensive custom maintenance. Xequals reduces Total Cost of Ownership (TCO) through our technology ecosystem. |
| Security and compliance risks? | ✓ | ✗ | Outdated systems pose security risks and compliance issues. Xequals has robust security/privacy. |
| Lack of agility? | ✓ | ✗ | Change is hard to implement in outdated systems. Xequals can help you innovate. |
| Unoptimised processes? | ✓ | ✗ | Migrating outdated systems to Xequals is an opportunity to improve your processes. |
| Scarce skills and expertise? | ✓ | ✗ | Finding skills for working with outdated systems is challenging. Xequals has abundant developer talent. |

Don't let outdated technology put your future at risk.
Partner with Xequals to unlock your modernization potential.
